A voice from the past with a **CONTEMPORARY** message

"Candy Campbell traces the pattern of Hal Holbrook's Mark Twain for authenticity and historical gravitas leavened with a sparkling wit..."

- *Bill Buchanan, Lodestar, San Francisco*

Like all successful Chautauqua scholars, Candy is incredibly knowledgeable about her character. What sets her apart is her background in theater and education. She has a stage presence that makes her character come alive in a way most Chautauqua style performances don't. It was more than a monologue, it was a story of Florence Nightingale's calling to become a nurse, her struggles to become a nurse, and her triumphs in the field of nursing seamlessly woven together ...

Candy's use of voices, humor, music, and full stage movement provided a truly captivating and authentic performance... Her depiction of Nightingale to make connections between Florence Nightingale's time and our current healthcare system that otherwise wouldn't be possible, and as a result, her performance was more relevant than most. We would highly recommend Candy Campbell to any organization looking to engage lovers of history and honor nurses in their community.
